

## ATTACHMENT C TO THE SPANISH FLAT WATER DISTRICT STAFF REPORT

### SMALL DOMESTIC WASTEWATER FACILITIES AT WHICH GROUNDWATER MONITORING IS REQUIRED

The following table contains a partial listing of small domestic wastewater treatment facilities (defined as generating less than 50,000 gpd of wastewater) for which groundwater monitoring has been required. This list contains only land-discharge sites regulated by the Sacramento office of the CVRWQCB. For most sites, groundwater monitoring has been required after the year 2000, in the form of updated or new WDRs, revised MRPs, or enforcement orders.

COUNTY	AGENCY NAME	FACILITY NAME	ORDER NO.	DESIGN FLOW (GALLONS PER DAY)
